

Roadmap for the establishment of the Regional Strategy for Sustainable Development

Roberto Ronco - Director Environment and Territory Directorate Rome, 12th June 2018

Regional Strategy for Climate Change

Official Bulletin of the Piedmont Region n.29 20/07/2017

Deliberation of the Regional Council 3 July 2017, n. 24-5295

Disposition for the preparation and implementation of the Regional Strategy on Climate Change within the framework of the National Strategy for Sustainable Development (deliberation of the Interministerial Committee for Economic Programming n. 57/2002 and art. 3, second clause of the law n. 221/2015).

Regional Strategy for Climate Change

Deliberation of the Regional Council 3 July 2017, n. 24-5295

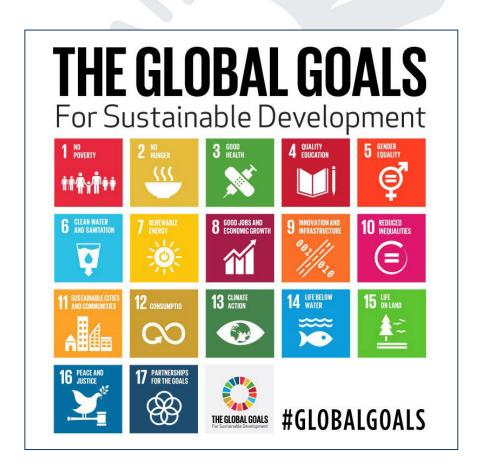

- The Strategy is a **guidance document** on the different policies, sectorial Plans and Programmes.
- It is acknowledges that **green and circular economy action models** are primary tools for the implementation of the Regional Strategy for Climate Change and of the envisaged Regional Strategy for Sustainable Development.
- It supports a **coordinated and integrated action** at the regional level, and it involves all the regional directorates.

The process towards the Regional Strategy for Sustainable Development

The Piedmont Region has therefore started a process based on:

- > stakeholder involvement
- institutional discussions (both horizontal and vertical)
- sharing of knowledge and experience

Stakeholder involvement Protocol "The Piedmont Region for Green Education"

38 stakeholders linked to institutions, associations, enterprises, schools, research, etc. subscribed the Protocol.

The Protocol "The Piedmont region for the *Green Education*", was approved in June 2016

Sustainable Vector

FOCUS ON THE ESTABLISHMENT OF THE REGIONAL COMMUNITY
FOR GREEN ECONOMY AND SUSTAINABILITY

#VettoridiSostenibilità

Series of events on Sustainability vectors 24^{th} May -22^{nd} June 2018

EDUCATION, AWARENESS-RAISING, COMMUNICATION
Transforming knowledge intocompetence

Supporting education for sustainable development Encouraging and implementing sustainable development solutions Communication

Horizontal institutional discussion The Regional Strategy for Climate Change

- ✓ Setting up of an inter-directorate working group, which is now a reference point in different fields (e.g. Trasports, Air quality, etc.) institutional coordination tool
- ✓ Internal regional training **course** (5 training days about 90 participants) for the creation of a common and shared base of knowledge

ENVIRONMENT AND TERRITORY DIRECTORATE

Coordination of the working group

- ✓ AGRICULTURE
- ✓ SOCIAL COHESION

- ✓ Regional Environment Authority for Structural Funds, guaranteeing the sustainable allocation of funds.

Vertical institutional discussion – steering committee **Territorial Strategic Processes/projects**

Processes/projects supporting the concrete implementation of good sustainability practices at the territorial level

Corona Verde: the Natural Capital for territorial sustainable development

Green infrastructure in the metropolitan area of Turin Territorial governance tool

2018/2020 Euro 1.259.000

Operative Regional Programme -ERDF2007/2013 -Nature/Culture Axis 10 Million Euros

Vertical institutional discussion – steering committee Territorial Strategic Processes/projects

Processes/projects supporting the concrete implementation of good sustainability practices at the territorial level

River Contracts: tools supporting the integrated and participated governance of water resources

Active processes

2 Lake Contracts

4 River Contracts – Dora Baltea, Pellice, Sangone, Stura di Lanzo

Vertical institutional discussion – steering committee Territorial Strategic Processes/projects

Processes/projects supporting the concrete implementation of good sustainability practices at the territorial level

Regional Environmental Energy Plan: Green Community and Oil free zone

Establishment of specific energy communities, which are omogeneous territorial areas in which the production and exchange of electric and thermal energy from renewable sources are tested, and strategies for efficiency improvement and reduction of energy consumption are implemented.

Knowledge sharing Measuring sustainability in Piedmont

At the regional scale, the integration of the Report on the State of the Environment and the Socio-economic Annual Report published by IRES (Piedmontese Institute for Socio-Economic research) allows to summarise, disseminate to decision makers, and communicate to the wider public

relevant data and information

Sustainability in Piedmont 2018

Measuring sustainability in Piedmont

The Report on the State of the Environment portal refers, for each area considered, to the 17 subjects included in the 2030 Agenda of the UN for Sustainable Development.

It aims to support the creation of knowledge on the state of our territory, and to assess the extent to which public policies in Piedmont are already in line with the sustainability paradigm and are able to support it.

Measuring sustainability in Piedmont

Annuario statistico regionale

I numeri del Piemonte

L'Annuario statistico 2017 è il frutto di una collaborazione tra l'Ufficio di Statistica della Direzione Risorse finanziarie e patrimonio della Regione Piemonte e la Sede di Torino dell'Istat, Ufficio territoriale per il Piemonte e la Valle d'Aosta, la Lombardia e la Liguria.

Istat e Regione Piemonte ritengono che l'integrazione dei rispettivi patrimoni informativi, agevolata anche dalle nuove tecnologie dell'informazione e della comunicazione, favorisca la diffusione della cultura statistica.

La collaborazione tra la Regione Piemonte e Istat, sancita da apposita Convenzione, è finalizzata a raccogliere e rendere disponibili gli ultimi aggiornamenti ufficiali disponibili delle informazioni statistiche relative al territorio piemontese.

L'Annuario è incardinato nel sito della Regione Piemonte ed è rivolto a tipologie diverse di utenti (enti locali, mondo imprenditoriale ed economico, università ed enti di ricerca scientifica, cittadini e studenti) con finalità divulgative, promozionali e scientifiche. L'informazione fornita è dettagliata, metodologicamente corretta, affidabile e accessibile. Non sono previste copie cartacee, in una logica di dematerializzazione e sostenibilità ambientale.

L'Annuario comprende 17 sezioni tematiche corredate da tabelle e cartografie.

Un'intera sezione è dedicata agli indicatori di misura del Benessere Equo e Sostenibile (BES) e agli indicatori Istat per gli obiettivi di sviluppo sostenibile (SDGS - Sustainable Development Goals) delle Nazioni Unite per il 2030.
